Lundbreck Bellevue Blairmore

The application of Mrs. J. Steynen has been accepted by the  
Pioneer Creek school board.

The annual meeting of the Cana-  
dian Press Association will be held  
at Toronto from June 14 and 15.

## Is Your Musical Ear Keener than Zenatello's?

**KNIGHTED**  
by the King  
of Italy—acclaimed  
in the musical  
centers of the Old  
World and The  
New—one of the  
great tenors of all  
times—Zenatello has delighted  
thousands with his  
"voice of golden tone, prodigal in its expenditure,  
yet responsive to every emotional shade." Zenatello  
is the leading tenor of the Boston National Grand  
Opera Company.

In the above picture, this great artist is singing in  
direct comparison with

## The NEW EDISON

Re-Creation of his voice. Over three hundred  
musical critics say that the New Edison Re-Creation  
of the voice is indistinguishable from the original.

Is your musical ear keener, truer than Zenatello's?  
Make the test. Hear the New Edison Re-Creation  
of Zenatello, Anna Case, Thomas Chalmers, Albert  
Spalding and other great artists.

We will gladly arrange a concert for you and your  
friends, so that you may hear these Re-Creations.

BLAIRMORE PHARMACY, - - BLAIRMORE, Alta.

## Returned Veteran Killed At Mine

The first fatality in connection with the West Canadian Collieries operations at Green Hill mines occurred on Monday morning, in which William Archer, a veteran of the South African and present European wars was the victim.

Mr. Archer went to work on Monday morning as usual, and was engaged filling cable rollers near the head of the incline, when he was struck by an ascending trip of empty coal cars. No one seems to have witnessed the accident, and it was a few minutes before help arrived. Although severely gashed up around the head and body, he retained consciousness until after being conveyed to the washhouse, where the spirit fled.

Mr. McDonald was hurried to the scene, but nothing could be done. On examination it was found that one foot was almost completely severed, a number of ribs were broken and several deep gashes were inflicted on the head. He lived for about twenty minutes after being struck, and during that time talked with those attending him and drank water on a couple of occasions.

The sad intelligence was broken to Mrs. Archer and children by Dr. H. H. Gray.

Mr. Archer was one of the oldest inhabitants of Blairmore and one of the best known miners in the district. For a number of years he served as secretary for the Blairmore local union, and would have held that office today had he not declined the nomination on Sunday last. He served as a private in the South African and Soudan campaigns, and but a few months ago returned from France, where he did service in the cause of the Allies in the present conflict, and received an honorable discharge. During his years of residence in the Crow's Nest Pass he had won respect from all classes of people, who will learn with deepest regret of his demise.

He is survived by a wife and three children, two daughters living at home and a son living near Calgary.

Funeral took place Thursday afternoon, following a short service conducted at the home by Rev. Dr. Gray, interment taking place at the Blairmore cemetery.

An inquest was held on Monday afternoon before Coroner Pinkney at the R.N.W.M.P. barracks. After viewing the remains and the scene of the fatality, the jury arrived at a verdict that death resulted from being hit by a trip of cars, and that blame could be attached to none.

Mrs. Archer desires through The Enterprise to express her heartfelt appreciation of the many kindnesses shown to herself and family in their bereavement.

Notice is given in the last issue of the Alberta Gazette, that the Blairmore School District No. 628 has been declared to be a village district for the purposes of any assessment and taxation for school purposes under Section 95 of the School Assessment Ordinance.

A meeting of the Western Canadian Coal Operators Association was held at the Cosmopolitan hotel on Tuesday of this week, attended by Lewis Sackett, president; O. E. S. Williams, vice-president; W. F. McNeill, secretary-treasurer, and about twenty other members of the association.

## J. R. MacDonald Resigns

John R. MacDonald, former manager of the West Canadian Collieries' mines at Bellevue, and who for the past three or more years has served with the Franco Canadian Collieries at Frank as technical manager, has tendered his resignation to that company, to take effect on February 28th.

Mr. MacDonald is one of the most experienced and best known mining men in the district, and operations under his direction have always been crowned with a goodly measure of success. We have not heard what his plans for the future are, but it is to be hoped that his connection with the mining industry of the Crow's Nest Pass will not be severed. Many rumors are in circulation regarding changes likely to be effected by the official staff of the Franco-Canadian Collieries in the near future, one to the effect that John Brown, former manager of the Hillcrest mines, will succeed John R. MacDonald.

## The Professor's Bulletin

No. 8, Science, either the corridor or the grounds of any public school. Time any period outside of class hours. Dramatic Performances: two school girls being called, and giving every indication of being engaged in some strife, after some interchange of rapid fire, one pretty densely with one blating and cheeks all adance. His her dainty foot and stamps very emphatically, while she sings out in some dramatic fashion, "I NEVER LOVE!"

Now, my dear young lady, while, possibly, I know the circumstances, I should sympathize quite sincerely with your indignation. I do know that I would not express my protest in the same terms. Nor, in fact, would you have done so even in the midst of passion, had you made a practice of expressing your thoughts accurately all the while your teacher was under control. Now, in the present case, what you have stated is a DENIAL, that on ANY OCCASION you have done the thing suggested. In other words, you DENY that you have EVER done so. Now, that may be a perfectly true statement of the case, and yet I feel confident that what you really intended to indicate is that ON THE "PEACH OCCASION" mentioned you DID NOT do the thing suggested. Don't you see the difference? Of course you do. Accordingly, the next time you have occasion to deny such an accusation, you will say, "I beg your pardon, I did not!"

"The Professor."

An elderly lady walking through the town last summer heard the church choir singing, and stopped to listen. "What beautiful singing!" she said to a man, who had also stopped in listening attitude. But he was a naturalist, interested in the "song" of a cricket. "Yes," he replied, "they do it by rubbing their hind legs together!"

## Wanted At Once

Bellevue, Alta., Fri. Feb. 23, 1917

The Post Office Department is in receipt of a statement from the British Columbia authorities stating that no parcels containing foodstuffs or articles of clothing should be forwarded in letters from Canada for prisoners of war in Germany.

The British authorities represent that it is absolutely necessary that the above regulation should be complied with. Therefore, on and from the 1st February, 1917, the Post Office Department will refuse to accept any such parcels, parcels of foodstuffs or articles of clothing for transmission to the prisoners, and could not get through.

The Canadian Red Cross Society through its Canadian office advises that every Canadian prisoner should receive adequate food and clothing, sending one parcel every week in cash if possible. Therefore, existing organizations should continue their work of collecting funds to be sent to the Canadian Red Cross Society, and it is most desirable that they should not relax their efforts in this respect.

Persons desiring to have additional food or supplies sent to a Canadian prisoner should send money for that purpose to the Prisoners of War Department, Canadian Red Cross Society.

A letter containing a remittance and asking the Prisoners of War Department, Canadian Red Cross Society, and should contain information in the following form:

Name of Prisoner, rank, regiment, division, Canadian or otherwise, to whom the remittance should be sent, and the name of the Prisoners of War Department, Canadian Red Cross Society, to whom the remittance should be sent, and the name of the Prisoners of War Department, Canadian Red Cross Society, to whom the remittance should be sent.

Persons wishing to send a remittance direct to a prisoner of war may do so by means of a post office money order, which is issued free of commission on amounts up to \$100.00.

Persons wishing to send a remittance direct to a prisoner of war may do so by means of a post office money order, which is issued free of commission on amounts up to \$100.00.

### Cowley Happenings

Ralph Rosterbrook is now at the front.

C. B. Sedgwick, of Lundbreck, is on a business visit to Calgary this week.

The Ladies Aid will meet at the home on Thursday afternoon, March 1st.

Mr. and Mrs. Roy Rosterbrook, of Sunnyside, are visiting with Roy's parents here.

Another baby has arrived to Mr. and Mrs. C. N. Orr, at the maternal hospital at Pincher Creek.

Mrs. T. E. Dole, it was called to St. Anne's on Wednesday in answer of the sudden illness of her daughter.

A pig and cushion were raffled off by the U.F.A. dance, Harry Welch and James Connor were the winners, respectively.

In spite of the cold weather, the U.F.A. dance was well attended on Monday. Dancing was kept up till late in the small hours of morning.

Mrs. Bonide and daughter, Mrs. Bonide, have removed their place of residence from the J. K. Bonide & Co. to T. Bonide's house in the city.

Mrs. Thomas Walby and her husband have returned home. Mrs. Walby will remain in Calgary for some weeks with her father, who is in ill health.

Mr. C. Morrison, James Smyth, James Hewitt and H. D. MacMillan are in Calgary, the work being in the (L.A.P.) movement. In conjunction with business, the latter being representative of the lodge.

The Donkholers are cutting their green feed in such length that it is difficult to handle. This is due to the fact that the straw is around the feed, making it difficult to handle.

The dance held in the Old Creek Schoolhouse on February 23rd, proved to be a great success. Some seventy people were present.

Mr. and Mrs. A. L. Drake left for the U.S.A. on Monday last.

Mrs. Helen Hootley, has accepted a position at the Hillcrest station.

Mr. and Mrs. E. O. McDonald were visiting in Frank on Sunday last.

Mrs. Harvey Linn and husband left this week to join her husband in the U.S.A.

He Hering left this week for Calgary where he intends spending a few days.

Mrs. John Kugel left this week for Montana, where they will reside in future.

A. Gaudin received eight minutes while working in New mine here on Tuesday.

Jack Brooks left on Sunday night for Fernie, to attend the district convention.

Mrs. A. Harvey is able to attend a golf, after being confined to her home for some time.

James Hargrove, who met with an accident in the mine recently, is doing well at the local hospital.

Herbert Barlow and W. H. Chappell, Jr., are in Calgary this week attending the sessions of the O.A.F. and lodge, & representatives of Bellevue Lodge 118.

We regret to learn of the very serious loss experienced by Mr. and Mrs. Charles Barrows, of Bellevue, when during the past week had to read the two youngest of their children, aged nine months and two years respectively.

Mr. Williams has purchased the interest and good will of A. L. Drake in the Bellevue Bakery business, and has secured the services of Mr. Burton, of Calgary, as baker, and Miss Kate Jordan as helper. We bespeak for the new proprietor prosperity.

how the present a teacher should, prospective for the last year (Feb. 1917). This most pleasant after-noon broke up by singing the national anthem.

It pointed out by a London paper that the prices at a dinner may not drink and smoke the equivalent of millions was something amount to the follow-up of London may seem billions of dollars, and yet a greater adjustment can be secured against luxuries indulgence.

### Why not our own Body Machine?

Body Machine?

We study and admire the machinery invented by man, and too often overlook and neglect that most marvelous machine—the human body.

To understand and take care of the heart, lungs and liver; the arteries and veins, the skin, the teeth, the eyes and all the intricate machinery of the body, is no small task.

But, unlike any other machine, the body replaces its own wear and waste, and, consequently, the most attention required is that which has to do with the organs of digestion and excretion.

So long as proper food is supplied for nourishment and the liver, kidneys and bowels are regular in their work of eliminating poisonous waste matter from the system, the great majority of human ills are avoided.

In this connection Dr. Chase's Kidney-Liver Pills are appreciated on account of their promptness and efficiency in arousing the action of these filtering and excretory organs, and thereby removing such disorders as liver complaint, biliousness, constipation, indigestion, kidney disease and backache. With these organs in healthful action there is no such thing as Bright's disease, hardening of the arteries and rheumatism.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

### Wealth of Western Provinces

Grain, Live Stock and Dairy Products. Constitutive Amazing Wealth.

The Winnipeg Free Press, in an exhaustive tabulation of market returns for Manitoba, Saskatchewan and Alberta for 1916, says that the value of live stock and dairy products and the first four months of the grain crop of these provinces totalled \$250,000,000.

For 1915 it gives a comparative figure of \$24,162,954, and for 1914 of \$140,699,535.

It is stated that 97,000,000 bushels of wheat has passed Winnipeg of the 1916 crop. Oats, barley and flax inspected there had a value of over \$10,000,000 higher than for the same month of the previous year.

It is estimated that 33,000,000 bushels of wheat remained in interior elevators at the close of the year.

The year's grain total is made up as follows, according to the Free Press: Wheat, \$101,809,953; oats, \$2,135,681; barley, \$6,899,692; flax, \$6,851,863; dairy products, \$12,728,614; Winnipeg stockyards, \$19,346,393; Calgary yards, \$10,110,779; Edmonton yards (three months), \$618,351; hogs, potatoes and roots, \$137,930,000.

### Minard's Liment Cure Diphtheria.

The Same Thing

Counselled to (plaintiff): "At this final interview when you desire payment by the defendant of this debt, what did he say to you?"

Plaintiff: "Go to the devil."

Counsel: "What did you do?"

Plaintiff: "I immediately consulted my solicitor."

Both Easy

"It is easy to give advice."

"Yes, also to refrain from taking it."

### How Money Makes Money

It is a striking commentary on the way in which corporate wealth increases of itself that the Standard Oil holdings alone of the late Charles W. Harkness, who died on May 15, last, increased in value \$7,018,991 between that date and December 7, when the appraisal of his fortune was disclosed.

Between the man's death and the rounding up of his possessions this one block of his \$60,000,000 of property had grown by that enormous sum, and while the man himself lay in his grave—Boston Transcript.

### Minard's Liment Cure, Limited.

Sir—I have used your MINARD'S LIMENT for the past 20 years, and whilst I have occasionally used other liniments can safely say that I have never used any equal to yours.

I rubbed between the hands and inhaled frequently, it will never fail to cure colds in the least in four days. It is also the best for bruises, sprains, etc.—Yours truly,

J. G. LESLIE.

### Dartmouth.

### Unemployment Ontario

Within the borders of Ontario are three tracts of 6,000 to 8,000 square miles each that no white man has ever explored. It is estimated that east of the reinder lake and Kananis river is a region of 7,000 square miles, larger than New York.

New Jersey, Connecticut and Massachusetts combined, which is yet to be explored, together there is an aggregate of 20,000 square miles of country which should be represented on the map by whiteness, and this calculation does not include unexplored areas of less than 4,000 square miles.—Dartmouth.

### State of Ohio, City of Toledo.

Frank J. Cheney makes oath that he is the owner and proprietor of the first and only establishment in the city of Toledo, Ohio, and State of Ohio, known as the CHASE'S KIDNEY-LIVER PILLS, and that he is the owner and proprietor of the first and only establishment in the city of Toledo, Ohio, and State of Ohio, known as the CHASE'S KIDNEY-LIVER PILLS.

### Keeping Account

A Little Figuring Will Usually Pay Big Dividends.

It has been said that if "red pencils" were uncommon things, there would be golden opportunities for "blackboards" for the students. As they are, at a substantial profit on the strength of the amount of money which could be saved by their use.

This was never more true than it is today when everything is so high priced. A little red pencil judiciously used will show which eggs lay had been cracked the most for the labor put upon them.

Such information would be valuable in planning this year's work. Last year's pencils have been known to save years of the time that was being spent in milking unprofitable cows.

A little figuring might show where the purchase of a new machine would more than save its cost in time saved during the rush of a busy season.

Before the lead pencil idea is capitalized, why not start of your own account to ascertain just how things are going and where savings of time and money could be made?—The Practical Farmer.

A Thorough Pill—To clear the stomach and bowels of impurities and irritants is necessary when the system is irregular. The pill that will do this work thoroughly are Parmenter's.

These pills, which are sold in every action but might in results. They are not only effective in clearing the system, but they are also the best for bruises, sprains, etc.—Yours truly,

J. G. LESLIE.

### Japanese Women and Jealousy

When a married man in Japan is attracted by another woman, his wife makes a straw effigy of her rival, and in the night sets it on fire. The strength and nails the figure to the trunk of a tree, and then, in the morning, the effigy is found in the street, driving a new nail into the figure each time, meanwhile praying for the other woman's death.

It is believed that, with the driving of the iron nails, the wife's jealousy becomes gradually worse and worse as she passes away. This curious superstition has been traced down from ancient times, but has now almost disappeared.

### WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to study, badly ventilated rooms, and is more or less exposed to the mother does not get him out in the open air, and the baby's skin becomes dry and itchy.

### War Surgery's Marvels

Appears to Be No Limit to the Progress of Modern Surgery.

I have seen two soldiers, with shrapnel bullets in their bodies, sitting up in bed talking and laughing like old friends. As they talk, they refer to the marvels of modern surgery.

There is an order in the use of the word "modern." It is not the marvelous achievements of our war surgery, but the marvelous achievements of our war surgery.

Quite recently a Canadian soldier, who had been wounded in the chest, was carried away by a fragment of shell, causing terrible disfigurement. The soldier was a third floor, and a piece of the wounded man's ribs.

In another case a lieutenant in a Highland regiment, whose lower jaw had been almost completely blown away, was doctored in a most unusual manner. The surgeon put a new floor to the man's mouth, actually induced two pieces of bone to grow on the lower jaw, and healed the remains of the lips, with the result that now the man is as normal as ever, and the only trace of his mishap is a slight scar by the mouth.

In another case the successful re-joining of the spinal cord was made for the first time in surgery. A soldier whose spinal cord had been completely severed by a shrapnel bullet was so treated that in a short time he was able to move his limbs and stand on his feet.

Another wonderful operation was the extraction of a fragment of bone from the heart of a Parisian surgeon, who had been wounded in the chest, and who had been wounded in the chest, and who had been wounded in the chest.

Another wonderful operation was the extraction of a fragment of bone from the heart of a Parisian surgeon, who had been wounded in the chest, and who had been wounded in the chest, and who had been wounded in the chest.
